HALL RENDER
KILLIAN HEATH & LYMAN

INSURANCE & CAPTIVES

Hall Render provides guidance to health care and other clients on alternative financing vehicles for professional and other liability risk. Such financing vehicles include domestic and foreign captive insurance companies, risk retention groups and risk purchasing groups. Our services include advice and counsel on structure, domicile selection, formation, licensure, tax and other regulatory matters. The firm also has forged valuable relationships with a number of experienced insurance managers, actuaries, underwriters and accountants who focus on captive insurance arrangements and are located in a number of domestic and foreign jurisdictions.

In addition, we provide corporate and regulatory guidance to our clients with more traditional health plans, including plans that provide Medicaid managed care services. Our attorneys can assist with the formation, sale and acquisition of those health plans.

AREAS OF FOCUS

- Captive Insurance Companies
- Formation of Health Plans
- Provider-Sponsored Health Plans
- Risk Purchasing Groups
- Risk Retention Groups
- Sale and Acquisition of Existing Health Plans
